DETAILED ACTION

Status of Application

1. Acknowledgement is made of amendment filed 2/27/06. Upon entering the amendment, the claims 1- 9 are amended and new claim 16 is added.
2. The claims 1-16 are pending and previously elected claim 9-16 presented for the examination.

Response to Arguments

3. Applicant's arguments filed 2/27/06 with respect to 102 and 103 rejections have been fully considered and are persuasive. The 102 and 103 rejections has been withdrawn hereinafter. However, there are some issues subject to 112, 2nd paragraph raised and new rejection is prepared.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 9-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "rich" in claim 9 is a relative term which renders the claim indefinite. The term "rich" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be

Art Unit: 1618

reasonably apprised of the scope of the invention. The definite description of the term "rich" would obviate this rejection .

6. Claims 9-14 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential structural cooperative relationships of elements, such omission amounting to a gap between the necessary structural connections. See MPEP § 2172.01. For instance, The omitted structural cooperative relationships are: Where the said supernatant is came from? The claim 15 describes the claimed invention clearly without omitting essential structural cooperative relationships of elements. In the case of that the claim 9 is incorporated by claim 13, the term "supernatant" found in Claim 9 in view of claim 13 is not clear which supernatant (1st, 2nd or 3rd) is meant by?

Allowable Subject Matter

7. Claim 15 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

1. No claim is allowed.
